OVER 200 ACRES DEVOTED TO THE  
GROWING OF FIELD GROWN  
TREES AND PLANTS THAT  
WILL PLEASE YOU

\* \* \*

When you have looked over this booklet,  
if you do not see what you want, write us,  
we will be glad to give you the information  
wanted. Do not fail to get our quantity  
prices before buying. We will always save  
you money.

Higginson, Arkansas

## GENERAL INFORMATION

**SHIPPING DIRECTIONS.**—Give explicit directions for marking and shipping stock. In case no directions are given, we will ship the cheapest and most direct route by freight, unless it is deemed safest and best to ship by express. In all cases, the shipment will be at the risk of the purchaser, and, if delay or loss occurs in transit, the forwarders alone must be held responsible.

Orders may be accompanied with a check, draft, post-office, or express money order for the amount. If neither can be obtained, enclose currency in registered letter with order, or if C. O. D. wanted, send 25 per cent cash with order and other will be sent C. O. D. and to enable you to get your order out early, send it in now; this to apply to early orders. After shipping season begins we will be able to ship promptly on receipt of your order.

**ERRORS.**—Customers are requested to send notice at once of any error that may be made in filing their orders, so that it may be rectified and explained.

**ARTICLES BY MAIL.**—Packages of small articles can be sent by mail, for the convenience of those who cannot be reached by railroad or express.

**THE SHIPPING SEASON.**—There can be no definite time specified for beginning to ship, either in the spring or fall. That is regulated by the opening of the season—early or late—and by the ripening of the stock in the fall; as the season for planting is not regulated so much by any particular month or day, nor by the state of vegetation, but more particularly by the condition of the trees to be planted. It is therefore better that orders be sent in early so the stock can be shipped or delivered at the proper season in good condition.

*We replace all stock that die first year at half price, if customer has taken reasonable care of it.*

Further, it is mutually understood by purchaser that no salesman has the authority to change terms of replacement other than herein given, and for replacement on terms listed, the customer is to notify the Company at Higginson, Arkansas, by letter, giving such information as they may request from time to time, and that the replacement cost is to be paid in advance of shipment, all replacements to be f. o. b. Nursery, Higginson, Arkansas, in season following agreement on goods to be replaced.

---

## GUARANTEE OF GENUINENESS

While the greatest diligence and care to have all trees, etc., true to label, will be expressed, mistakes may occur, and in such cases, upon proper proof, the trees, etc., will be replaced free of charge, or the amount paid refunded; the method is to be at our option, replacement of goods or refund amount paid for them, but it is mutually understood and agreed to between the purchaser and ourselves that the guarantee of genuineness shall in no case make us liable for any sum greater than that originally paid for the Trees, Shrubs, Roses, Seeds, Plants, etc., that prove untrue.

## PEACH TREES

Peach trees in one and two year old whole root trees, that will please you, and no increase in prices from 1941.

### VARIETIES

Mayflower	Rochester
Early Wheeler	J. H. Hale
Red Bird	Early Crawford
Golden Jubilee	Chinese Cling
Murray's Beauty	Indian Cling
Arp Beauty	Heath Cling
Mamie Ross	Stinson Cling
Hiley	Krummel Oct.
Belle of Georgia	Berta ( <i>Yellow Free</i> )
Elberta	Late Elberta
Champion	Salway

### TWO-YEAR-OLD TREES

	Each	10	100	1,000
1-2 ft. ....	\$ .12	\$1.00	\$ 6.00	\$ 50.00

5-6 ft. ....	.50	5.00	40.00	300.00

### ONE-YEAR-OLD JUNE BUD PEACH TREES

Buy 100 or more of these peach trees listed below. You will find them to be clean stock, State inspected, that will please you in every way; whole root budded trees, all of a good commercial grade of the \$5.00 per 100 trees. They will be nice, clean little trees, about one foot high; with good cultivation will come into quantity bearing the third year from planting or just as soon as the larger ones will, but to get them in when planting will take just a little more personal attention per tree. Of course the \$8.00 per hundred trees are larger and so are the \$9.00 per hundred ones. All are good stock, and will please you. Order now while you can get them at this price.

	Per 100	Per 1,000
About 1 foot high .....	\$ 5.00	\$ 45.00
12-18 inches .....	7.00	60.00
18-24 inches .....	8.00	70.00

5-6 ft. ....	.75	6.00	50.00	400.00

## APPLE TREES

*"An Apple a Day Keeps the Doctor Away"*

What tastes better than fruit picked from your own trees? The fruit grower with a large commercial orchard should grow apples; the farmer in his home orchard should have apples; the owner of the small lot or suburban property should have a few apple trees in his yard. There is a ready market for all the surplus fruits a grower has. Our small town markets are never fully supplied with apples.

Now is the time to buy apple trees, to fill in or plant a new orchard, we have over 100,000 fine, clean, State inspected trees in one and two-year-old stock that will please you. We have a nice, clean special commercial grade that we will make you for \$7.00 per hundred. With good cultivation will come into bearing 4th or 5th year from planting. Make out your order and mail at once, make your own selection from the list below, that will be best suited to your soil and locality.

### VARIETIES

Red June	Jonathan
Yellow Trans.	Golden Winesap
Early Harvest	Dutchess Red
Red Astrachan	Stayman Winesap
Maiden Blush	Winesap

## ✓ PECAN TREES

### BUDDED AND GRAFTS

#### *A Substantial Life Income*

And a handsome inheritance for life for those who are dearest to you. Think what it means to be independent, to be able to look into the future without fear of old age, failing health, accident, increasing family responsibilities, money panics, uncongenial employment troubles which overtake 95 people of every 100. Can you afford to put it off another year?

Plant your pecan orchard now.

BURKET.—Large almost round, shell thin. Flavor excellent. One of the best. Bears young and every year; fine.

HALBERT.—Almost round, medium size. Flavor highest. Perhaps the youngest bearer known. Prolific. An all-around pecan. Very thin shell.

## BAKER NURSERIES

---

**TEXAS PROLIFIC.**—Large, rather long. Thin shell, fine kernel. Bears young. Heavy and sure bearer.

**SUCCESS.**—A fine nut of oblong shape, tree making a fine up-right growth; a regular producer; you will be pleased with it.

**MONEY MAKER.**—A very popular nut and planted largely by all planters; the tree is a vigorous grower; nuts of good size; paper shell.

**SCHLEY.**—Medium long; pointed; shell thin; meat plump, full, separating easily; quality best.

**STUART.**—Introduced by the late W. R. Stuart, of Ocean Springs, Mississippi. A standard among the high class pecan for commercial orchards. Nut large; well shaped, and of fine appearance; reasonably thin shell; well flavored. The best pecan for either commercial or home growing.

**VAN DEMAN.**—Large, oblong, shell moderately thin; cracks and separates well; meat plump full and of good quality.

## ✓ YOUNGBERRIES

We have tried the Youngberries thoroughly over the past 10 years here in our own fields, and have found them to pay us more net money per acre, for the cost put into them, than any berries we are raising now, once planted you have them for years, and through the very dry weather-summer of 1934, and the still harder one of 1936 our Youngberries came through 85 to 90 per cent good, there is no other berry or vine or vines that have done this, and we are doubling our planting. Try one acre or more now, while you can get the real original strain.

## NEW BOYSENBERRIES

### *Reserve Now*

There have now been reserved more plants than were sold up to January 1st last season and if you desire to plant the Boysenberry this coming season it would surely be wise to make your reservation now. Not 1-10 of the population of the United States has seen or tasted this marvelous berry and when they do there is going to be the greatest stampede for these plants that has ever been known for any plant.

*No. 1 Strong Tip Rooted Boysenberry Plants Prepaid to Any Express or Post Office in the United States.*

Plants 15c each; 100, \$6.00; 1,000, \$45.00; 5 at 10 rate; 50 at 100 rate; 500 at 1,000 rate. If you desire to plant 3,000 or more, consult us relative to prices.

Please send check with your reservation for at least one quarter of the total. It is understood the balance is to be paid just before shipment.

---

## ✓ GOOD STRAWBERRY PLANTS

In making your plans for planting you will, without a doubt, be very careful to obtain the right kind of plants; for who wants to plant a field of strawberry plants, spend good money cultivating and caring for it, unless he feels sure that the results will be satisfactory? You will find our plants to be grown, dug, packed right and will please you.

### *How To Plant*

We would advise using new land when you have it. If not, any good well-drained soil will do. First: Flat break it, disc, harrow up in good shape, then bed in rows 4 feet wide, by using either a middle buster or breaking plow; then use a good two-horse harrow over the beds till you have them down to the required height; plant the plants about 18 inches in row in middle of ridge; work with hoe

# BAKER NURSERIES

and plow as often as necessary through the summer to keep clean and the soil in good shape. By late October you will have a fine bed of new plants. If you wish to use fertilizer do it in early May and September. We plant about 7,000 plants to the acre. In Southern Texas they use what is called the double hedge row, using from 20,000 to 40,000 plants per acre.

## EVERGREENS

Home builders of the Southwest have not realized the

## BAKER NURSERIES

importance of properly planting evergreens. Every landscape should contain a few evergreens and shrubs to give the effect of life in the dead of winter. On some types of houses an entire foundation planting of evergreens is most attractive when located properly by giving them the right kind of treatment. You will be delighted by the results.

CEDRUS DEODARA.—A magnificent tree attaining a height of from 50 to 75 feet, its lower branches gracefully sweep the ground, giving the tree a stately appearance; foliage is feathery, and of a pleasing blue-green color. Succeeds admirably in this climate, and is to this section what the Koster Blue Spruce is to the North. Considered the most handsome of all growing specimen conifers. The young trees are beautiful and feathery, becoming more dignified and steady with age.

### BROAD LEAF EVERGREENS

Broad leaf evergreens are truly the South's greatest floral treasure. No other section of our country can enjoy the striking landscape effects which their use produces. Many varieties lend beauty both with bloom and luxuriant evergreen foliage

**EUONYMUS.**—Hardy ornamental plant with rich, handsome foliage; luxurious growth, naturally beautiful shape, can be made any desired form by trimming, has glistening round leaves; 18-24 inches, bare rooted, \$1.00 each; 24-30 inches, bare rooted, \$1.50 each; 36-42 inches, bare rooted, \$2.00 each. If wanted balled add 25 cents per plant.

**NANDINA.**—The delicate foliage of the plant is a brilliant dash of gorgeous orange-red, or crimson color in the winter; it is dense and stocky in growth—dwarfish growth with many of the plants late summer and fall showing a growth of berries same color as the leaves. It will please you. Price: 12-18 inches, \$1.00 each; 18-24 inches, \$1.50 each; 24-30 inches, \$1.75 each; 3-4 feet, \$2.50 each. All balled and burlapped.

**ABELIA GRANDIFLORA.**—One of our most beautiful popular and satisfactory broad-leaved Evergreens. The graceful drooping stems and branches are covered with dark, glossy leaves which in winter assume a metallic green. From the middle of May until frost this plant produces an immense quantity of tubular-shaped white flowers about an inch long which are borne in clusters. During the growing season it is advisable to pinch off the ends of the long shoots. This will make the plant dense and compact. For single specimens, for groups, or for a hedge we cannot too strongly recommend this plant. 2-3 feet, \$1.00 each; 3-4 feet, \$1.50 each; 4-5 feet, \$2.25 each; if balled and burlapped, add 25c each.

**NEW RED LEAVED JAPANESE BARBERRY.**—It is similar in all respects to the green leaved Japanese Barberry which

## BAKER NURSERIES

---

is so popular, but the foliage of this new variety is of a rich, lustrous, brandy red, similar to the richest red leaved Japanese Maples. All that is required to develop its brilliant coloring at all seasons is that it be planted in full exposure to the sun. 1-2 feet, 75c each; 2-3 feet, \$1.00 each; 3-4 feet, \$2.25 each. If wanted balled and burlapped, add 25c per plant.

**BARBERRY THUNBERGH.**—Neat and dense in growth. Produces yellow flowers in summer, followed by scarlet fruit, borne in dense profusion, clinging throughout most of the winter. Leaves color to scarlet and gold. Bare roots. 1-2 feet, 75c each; 2-3 feet \$1.00 each; 3-4 feet, \$1.50 each. If wanted balled and burlapped add 25c each.

**EUONYMU PATENTS** (*Berried type*).—A good broad leaf plant, and will not winter kill, should be in every planting. Price: 12-18 inches, \$1.00 each; 18-24 inches, \$1.50 each; 24-30 inches, \$2.00 each; 30-36 inches, \$2.50 each; 36-48 inches, \$3.50 each. Balled and burlapped.

**LUCIDUM COMPACTA.**—Leaves are very thick and waxy, the upper surface being highly glossed of black-green color and underside of a lighter shade. Plant is very compact, heavily branched, ideal in form and development. Wax Privet grows in shade or full sunlight. Price, two-year-old-plants, 18-24 inches high, at \$1.50 each; 24-36 inch plants, \$2.00 each; 3-4 feet, \$3.00 each; 4-5 feet, \$5.00 each. Balled and burlapped.

Junipers (*Spreading type*) all 18 to 24 inches, plants well developed, ready for the foundation planting of your home, you will find these plants to be of the grade that usually sell for double or more than what we are asking for them, and will please you. If wanted may buy 24 of them for \$17.50. Place your order now while you can get good plants at this price.

---

We want to call your attention to all of the items listed in this book and the very low prices made on the stock, which is as a whole the same old prices we have been selling for over a number of years, and by comparison you will find much under what any of the other good Nurseries are asking today for the same goods, so while good Trees and Plants can be bought for so little, we hope to have the pleasure of receiving your order promptly for what you need. If any further information is wanted, ask us for it. Will be a pleasure to answer your inquiries.

---

## WE GUARANTEE OUR STOCK TO REACH YOU IN GOOD CONDITION

All will be State inspected, and a certificate of inspection will be attached to your order, and it will please you. Weather and soil conditions and the way stock is handled after it leaves us will have much to do with its growing and doing well, due to all of these things being beyond our control you can see we cannot guarantee the stock to live and grow, because that depends entirely upon you, and in making your order to this you agree.

## BAKER NURSERIES

### TREATMENT OF TREES, ETC., THAT HAVE BEEN FROZEN IN THE PACKAGE OR RECEIVED DURING FROSTY WEATHER

Put them unopened in a cellar or some other cool, protected place, free from frost, or cover them up heavily or entirely with earth until they are fully thawed out, then they can be unpacked and planted or placed in trenches until convenient to plant.

Treated in this way they will not be injured by the freezing.

---

### SUITABLE DISTANCE FOR PLANTING

	Feet		Feet
Apples, Standard ..	20 to 40	Grapes .....	6 by 8
Apples, Dwarf, ...	6 to 8	Currants .....	3 by 4
Pears, Standard ...	18 to 20	Goosebessier ....	3 by 5
Pears, Dwarf .....	10 to 12	Raspberries, Red .	3 by 6
Peaches, .....	18 to 20	Raspberries, Bl. .	4 by 6

Plums .....	18 to 20	Aspa'gus in beds	1 by1½
Quinces .....	8 to 10	Aspa'gus in fields	1 by 3

---

### NUMBER OF TREES AND PLANTS ON AN ACRE AT VARIOUS DISTANCES

1 x 1 ft. ....	43,560	5 x 5 ft. ....	1,742
2 x 1 ft. ....	21,780	6 x 6 ft. ....	1,210
2 x 2 ft. ....	10,890	8 x 8 ft. ....	680
3 x 1 ft. ....	14,520	10 x 10 ft. ....	435
3 x 2 ft. ....	7,260	12 x 12 ft. ....	302
3 x 3 ft. ....	4,840	15 x 15 ft. ....	193
4 x 1 ft. ....	10,890	16 x 16 ft. ....	170
4 x 2 ft. ....	5,445	18 x 18 ft. ....	134
4 x 3 ft. ....	3,630	20 x 20 ft. ....	108
4 x 4 ft. ....	2,722	25 x 25 ft. ....	69
5 x 2 ft. ....	4,356	30 x 30 ft. ....	48
5 x 3 ft. ....	2,178	33 x 33 ft. ....	66

The number of plants required for an acre, at any given distance apart may be ascertained by dividing the number of square feet in an acre (43,560) by the number of square feet given to each plant, which is obtained by multiplying the distance between the rows by the distance between the plants. Thus strawberries planted 3 feet by 1 foot gives each plant 3 square feet, or 14,520 plants to the acre.

THE REASON WHY YOU SHOULD BUY  
YOUR FRUIT TREES, FRUIT PLANTS,  
AND OTHER NURSERY STOCK  
FROM US.

All of our trees and plants are State Inspected and will please you in every way, and your order will have attached to it a copy of our inspection certificate from our State Plant Board.

We have been in the nursery business for many years, thereby attaining a full and complete knowledge of what varieties are giving best satisfaction in our trade territory, also of the best mode of propagating and growing stock, and of handling and caring for it when transplanting.

We are not making a specialty of growing a few sorts, such as apples, peaches, and cherries, but have a general nursery, thereby enabling the purchaser to select from a complete assortment of fruits, deciduous and evergreen trees, flowering shrubs, vines, roses, bulbs, etc., that are of superior quality and less cost than the same stock can be secured from other nurseries.

Our location is in the center of a great fruit-producing country. New sorts are continually being tested and either placed on the list as being worthy or discarded, thus enabling us to obtain the very best approved varieties.

We are located at the foot of the Ozark hills in the heart of the famous White County, Ark., strawberry district, on the Missouri Pacific Railway and Chicago, Rock Island and Pacific Railway, two largest railroad systems in the country, making our railroad facilities for quick transportation for perishable goods one of the best. We are enabled to ship direct to many points without risk of delay in transferring stock from one railroad to another.

We have a modern up-to-date plant, packing shed 90 feet wide and 200 feet long, our water system, lights, trucks, and cars, tractor, and use 15 to 18 head of mules to help carry on the work of growing trees and plants, using a tract of over 1,000 acres of land, with some 200 acres devoted to a general line of field grown trees and plants, and increasing the number of new acres each year. This, the present owner and manager has built up in the short time of 24 years. Surely this will speak well of the quality of our goods and the service we have given to our old customers in the past and it is our expectation to continue to do everything we can to please you in the future. Give us your order—it will have our personal attention, and sure it will please you.

WE GUARANTEE YOUR SHIPMENT TO REACH  
YOU IN GOOD CONDITION
